## Diagnostic testing Discipline Hygiene 4<sup>th</sup> term

Code, educational program	31.05.01
	General Medicine
Specialty	
	General Medicine
Form of education	Full time
Compiler	Department of Morphology and Physiology
Graduate Department	Internal Diseases

Competence	Tasks		Option options	Question Difficulty Index
GPC-2.2 GPC-2.3	1. <i>Choose one correct option</i> The main biological	1.	an important structural element of the body	low
	role of fiber is	2.	activator of the basic metabolism	
		3.	Regulator of the motor function of the intestine	
		4.	the main source of	
		5.	energy for the body the main source of	
		5.	vitamins and	
			micronutrients	
GPC-2.2	2. Choose one correct option	1.	Beriberi	low
GPC-2.3	What kind of disease develops	2.	Rickets	
	with insufficient protein	3.	Rheumatism	
	nutrition:	4.	Kwashiorkor	
		5.	Scurvy	
GPC-2.2	3. Choose one correct option	1.	atmospheric waters	low
GPC-2.3	The main sources of water	2.	surface waters	
	supply in large cities :	3.	artesian wells	
		4.	ground waters	
		5.	atomic desalination	
			plants	
GPC-2.2	4. Choose one correct option	1.	January-February	low
GPC-2.3	In which months of the year	2.	March-April	
	does the UV intensity reach its	3.	April-May	
	maximum in Russia:	4.	June-July	
		5.	September-October.	
GPC-2.2	5. Choose one correct option	1.	exhaust with natural	low
GPC-2.3	The operating room has the		motivation	
	following type of ventilation:			

inflow	d exhaust ominance of
3. supply and a	
a predom exhaust	nance of
4. supply and e	
equalvolume and exhaust.	s of mflow
GPC-2.2 6. Choose one correct option 1. a, b, e	mid
GPC-2.3 Foods rich in high-grade 2. b, c, d	
protein sources are: 3. c, d, e a) cereals and products of their 4. a, b, e	
a) cereals and products of their 4. a, b, e processing 5. b, c, e	
b) meat and meat products	
c) milk and dairy products	
d) vegetables and fruits	
e) fish and fish products	
GPC-2.2         7. Choose one correct option         1.         30-45-25	mid
GPC-2.3 Optimal distribution of caloric 2. 15-50-35	
content of food by individual 3. 20-60-20	
meals with three meals a day (in 4. 20-35-45	
%) is: 5. 10-50-40	
GPC-2.2 8. Choose all correct options 1. Artesian	mid
GPC-2.3 Water from which sources must 2. meteoric wa	
be decontaminated before being 3. ground wate	
supplied to the consumer: 4. from open re	servoirs.
GPC-2.2 9. Choose one correct option 1. iron and alum	
GPC-2.3 What salts are responsible for 2. salts sodium	and
the hardness of water? potassium	
3. salts calcium	and
4. salts nitrites a	nd nitratas
5. iodine and flu	
content.	
GPC-2.2 10. Choose all correct options 1. low atmosphere	ric mid
GPC-2.3 Conditions that aggravate the pressure	
cooling effect of atmospheric 2. increased hur	nidity air
air at its low temperature is: 3. low air humid	ity
4. time of day	
5. presence of v	ind.
GPC-2.2 <i>11. Choose all correct options</i> 1. vibrograph	mid
GPC-2.3 Devices for long-term registration 2. thermograph	
of meteorological factors: 3. barograph	
4. hygrograph	
5. electrotherm	oanemome
GPC-2.2 <i>12. Choose all correct options</i> 1. mass charac	ter mid

	Signs characteristic of food poisoning:	<ol> <li>sudden onset of the disease</li> <li>Acute course of the diseases</li> <li>High body temperature</li> <li>The connection of the disease with food intake.</li> </ol>	
GPC-2.2 GPC-2.3	<b>13. Choose all correct options</b> Conditions that aggravate the heating effect of atmospheric air in extreme heat:	<ol> <li>high atmospheric pressure</li> <li>low atmospheric pressure</li> <li>Presence of wind</li> <li>low humidity</li> <li>hyperkinesia</li> </ol>	mid
GPC-2.2 GPC-2.3	<i>14. Choose all correct options</i> Advantages of fluorescent lamps in comparison with incandescent lamps:	<ol> <li>ease of operation</li> <li>the proximity of the spectrum to daylight</li> <li>The absence of sharp shadows</li> <li>the possibility of a variety of aesthetic shapes of lamps</li> <li>long service life</li> </ol>	mid
GPC-2.2 GPC-2.3	<b>15.</b> Choose all correct options Sources of hospital air pollution with gaseous substances:	<ol> <li>people (anthropogenic factor)</li> <li>polymer materials</li> <li>Medicines</li> <li>Disinfectants</li> <li>Dry cleaning of premises</li> </ol>	mid
GPC-2.2 GPC-2.3	16. Choose all correct optionsWhendesigningamultidisciplinaryhospital, itshouldbeprovidedforplacementin separatebuild in gs(blocks)of next departments :a)infectiousb)surgical unitc)therapeuticd)pediatrice)physiotherapy	1. b, c, e 2. a, c, d	high
GPC-2.2 GPC-2.3	<ul> <li>17. Choose the right combination of options</li> <li>How does the ozone hole affect humans?</li> <li>a) an increase in the flow of cosmic rays reaching the earth's surface</li> <li>b) an increase in the flow of bactericidal ultraviolet rays reaching the earth's surface</li> </ul>	1. b, c, d 2. a, c, e 3. b, c, e 4. a, b, c 5. c, d, e	high

	c) an increase in the number of		
	skin cancers		
	d) an increase in the mutagenic effect of UFL		
	e) the destruction of all life on		
	earth.		
GPC-2.2	18. Choose one correct option	1. the minimum severity	high
GPC-2.3		of meteorological	
	What is a microclimate?	factors characteristic of	
		a given area	
		2. the meteorological	
		regime in a limited area	
		3. The minimum set of	
		meteorological factors	
		characterizing the	
		relationship of nature to	
		man	
		4. the intensity of physical	
		processes occurring in	
		the atmosphere when	
		interacting with the	
		earth's surface	
		5. a set of natural and	
		climatic factors	
		6. that determine the	
		development of flora	
		and fauna in a given	
GPC-2.2	19. Choose one correct option	area 1. diagnosis and treatment	high
GPC-2.3	17. Choose one correct option	of diseases	Iligii
01 C 2.5	The objective of hygiene is	2. maintaining or	
		improvement of health	
		3. Remove or repair	
		diseased tissues or	
		organs	
		4. the teaching methods of	
		examination of patients,	
		recognition of basic	
		clinical syndromes	
GPC-2.2	20. Complete the sentence	is consistently present but	high
GPC-2.3	A disease is endemic if it:	to a certain region.	
		This differs from an	
		in which there is	
		a sudden increase in the	
		number of cases of a disease	
		or a in which a	
		disease has spread over	
		several countries or	
1		continents

Competence	Tasks	Option options	Question Difficulty Index
GPC-2.2 GPC-2.3	1. <i>Choose one correct option</i> In what units is the relative humidity measured?	<ol> <li>as a percentage</li> <li>in degrees of Reaumur</li> <li>in g/m3 of air</li> <li>in cal/cm2/min</li> <li>in mm of water column</li> </ol>	low
GPC-2.2 GPC-2.3	2. Choose one correct option Sanitary-indicative microorganisms, the determination of the number of which is used for epidemiological assessment of water are:	<ol> <li>Salmonella Typhi;</li> <li>Enterococci;</li> <li>E. coli;</li> <li>Shigella;</li> <li>C1.perfringens.</li> </ol>	low
GPC-2.2 GPC-2.3	3. <i>Choose one correct option</i> The most common sources of botulism are:	<ol> <li>mushrooms home- canned;</li> <li>dairy products;</li> <li>canned meat;</li> <li>cold smoked fish</li> <li>vegetables and fruits home-canned</li> </ol>	low
GPC-2.2 GPC-2.3	4. <i>Choose one correct option</i> Hospital wards can be divided into:	<ol> <li>General Wards;</li> <li>Paediatric Wards;</li> <li>Maternity Wards;</li> <li>Intensive Care Units;</li> <li>Isolation Wards</li> </ol>	low
GPC-2.2 GPC-2.3	5. <i>Choose one correct option</i> Essential amino acids intended only for children include the following:	<ol> <li>histidine.</li> <li>methionine.</li> <li>cystine.</li> <li>valine</li> </ol>	low
GPC-2.2 GPC-2.3	6. Choose one correct option What salts are responsible for the hardness of water?	<ol> <li>iron and aluminum</li> <li>salts sodium and potassium</li> </ol>	mid

		2 aptra politicaria i	
		3. salts calcium and magnesium	
		4. salts nitrites and nitrates	
		5. iodine and fluorine	
		content.	
GPC-2.2	7. Choose all correct options	1. cereals and products of	mid
GPC-2.3	Foods rich in high-grade protein	their processing;	11IIG
01 0 2.0	sources are:	2. meat and meat products;	
		3. milk and dairy products;	
		4. fish and fish products;	
		5. vegetables and fruits	
GPC-2.2	8. Choose all correct options	1. carrot;	mid
GPC-2.3	Carotene source products are:	2. red pepper;	
		3. tomatoes;	
		4. eggs;	
		5. liver	
GPC-2.2	9. Choose all correct options	1. low atmospheric	mid
GPC-2.3	Conditions that aggravate the	pressure	
	cooling effect of atmospheric	2. high humidity	
	air at its low temperature are:	3. low air humidity	
	1	4. time of day	
		5. the presence of wind	
GPC-2.2	10. Choose all correct options	1. thermograph	mid
GPC-2.3	Instruments that measure	2. barograph	
	atmospheric pressure are:	3. an aneroid barometer	
		4. catathermometer	
		5. an actinometer	
GPC-2.2	11. Choose all correct options	1. Widespread use of	mid
GPC-2.3	Methods of formation of	phytoprophylaxis	
	nonspecific resistance of the	2. Widespread vaccination of	
	child's body are:	children	
		3. Medical examination	
		4. Rational nutrition	
GPC-2.2	12. Choose all correct options	5. Rational organization	mid
GPC-2.2 GPC-2.3	Advantages of fluorescent	<ol> <li>ease of operation</li> <li>the proximity of the</li> </ol>	1110
01 C-2.3	e	spectrum to daylight	
	lamps in comparison with incandescent lamps:	3. The absence of sharp	
	incandescent lamps.	shadows	
		4. the possibility of a	
		variety of aesthetic	
		shapes of lamps	
		5. long service life	
GPC-2.2	13. Choose all correct options	1. Primary	mid
GPC-2.3	Types of preventionTypes of	2. Secondary	11100
	prevention are:	3. Tertiary	
	Presentation and	4. Mixed	
GPC-2.2	14. Choose all correct options	1. causes skin to heat up;	mid
GPC-2.2 GPC-2.3	Biological effect of the infrared	2. increases body	
	part of the solar spectrum is:	temperature;	
	r	3. dilates the skin vessels;	
		4. increases metabolism;	
		5. has a bactericidal effect	
L		5. hus a succeiveral circet	

	15 Channe II ( )	1 4-	• 1
GPC-2.2	15. Choose all correct options	1. the coefficient of	mid
GPC-2.3	Indicators for assessing the	sinking;	
	natural illumination of rooms	2. Light coefficient;	
	that improve visual comfort are:	3. window size;	
		4. coefficient of natural	
		light;	
		5. number of windows	
GPC-2.2	16. Choose all correct options	1. Maintaining health	high
GPC-2.3	Healthy lifestyle is aimed at:	2. Disease prevention	0
		3. Health promotion	
		4. Physiological indicators	
		5. Microclimate indicators	
GPC-2.2	17. Choose all correct options	1. Fatness	high
GPC-2.2 GPC-2.3	Health risk factors are:		Ingii
GPC-2.5	Health fisk factors are:	2.Irregular medical	
		examinations	
		3. The presence of	
		concomitant allergic	
		diseases	
		4. Innate predisposition to	
		colds	
		5. Unsatisfactory social and	
		living conditions	
GPC-2.2	18. Complete the sentence		high
GPC-2.3	Rational nutrition is:		-
GPC-2.2	19. Choose one correct option	1. 1, 2, 3	high
GPC-2.3	The biological role of	2. 1, 2, 4	C
	carbohydrates:	3. 1, 3, 5	
	1.act as an energy source	4. 3, 4, 5	
	2. serve stores for energy	5. 2, 3, 5	
	3.help control blood glucose	5. 2, 5, 5	
	metabolism		
	4. biochemical catalysts		
	5. participate in cholesterol		
	metabolism		
	20 Commission the second second		11.
GPC-2.2	20. Complete the sentence	is consistently present but	high
GPC-2.3	A disease is endemic if it:	to a certain region.	
		This differs from an	
		in which there is a	
		sudden increase in the	
		number of cases of a disease	
		or a in which a	
		disease has spread over	
		several countries or	
		continents
